## TOUCHSCREEN THERMOSTAT

## FREQUENTLY ASKED QUESTIONS

***Touchscreen Thermostat is an elegantly powerful touchscreen room thermostat that reduces the operating cost of an HVAC system.***

- Unique but elegant touchscreen interface where the menu options and available buttons change intuitively
- US DOE Energy Star rating reduces the operating cost of the HVAC system by programmably altering temperature set point based on room occupancy patterns
- Includes Energy Watch — a unique way of displaying the total operating cost of the HVAC system
- Unique 2-wire model allows for the retro-fit of a touchscreen thermostat into installations where only 2 wires are available from the air handler to the thermostat location.

### **Q: Why do I need another thermostat line?**

**A:** DiversiTech thermostats are the easiest to program and operate by both the contractor and homeowner. The Touchscreen Thermostat includes many unique and patented features not found in other brands — a state-of-the-art touchscreen interface allowing maximum programming control of day to day settings and fan mode. Convenience features include: 7 day programming, humidity control, and non-battery memory settings.

### **Q: What's so different about this thermostat?**

**A:** Dot matrix design allows all the information needed to be displayed on the screen. The intuitive, menu-driven screens allow for easy operations and installations. The large display is easy to read, and the menu-driven operation is easy for the consumer to operate.

### **Q: How does the pricing compare to other comparable thermostats?**

**A:** DiversiTech's Touchscreen Thermostat is priced very competitively in the market. This product is not available in retail stores.

### **Q: What thermostats currently on the market are comparable to Touchscreen Thermostats?**

**A:** DiversiTech's Touchscreen Thermostats are comparable to Totaltouch thermostats.
