

## About DiversiTech

DiversiTech Corporation is North America's largest manufacturer of equipment pads and a leading manufacturer and supplier of components and related products for the heating, ventilating, air conditioning, and refrigeration (HVACR) industry.

Headquartered in the Atlanta, GA metropolitan area, DiversiTech manufactures a suite of products, which includes a wide range of mechanical, electrical, chemical, and structural parts for HVACR systems. The company maintains manufacturing and distribution facilities in key U.S. locations and in the Far East. DiversiTech has enjoyed a continued history of successful growth and has acquired industry-recognized brand names including Wagner Manufacturing and Specialty Chemical.

## CLEANVENT™ HVAC DUCT GUARDS

*CleanVENT™ — The contractor's IAQ call back insurance for system installs. CleanVENT™ preserves system IAQ integrity for a fraction of call back costs and installs in just seconds.*

CleanVENT™ prevents sawdust, trash, and debris from collecting in vent openings.

CleanVENT™ prevents water damage and dangerous mold and mildew.

CleanVENT™ prevents pest infestation.

HVAC DUCT GUARDS

CleanVENT™ is a tough durable polymer cover that protects HVAC floor vents from debris, construction site liquids and drywall dust.

- Keeps your ducts clean during construction
- Saves hours of ventilation system clean-up for just pennies
- Available in all the popular HVAC vent sizes
- Helps prevent callbacks

Without CleanVENT™, floor vents fill with dust, liquid, and construction site debris.

With CleanVENT™, system IAQ integrity is preserved.

CleanVENT™ is designed with a flat lip and recessed center for an easy, drop-in fit. Installs in seconds with a tack, staple, or mastic providing a water tight seal.

CleanVENT™ comes in a multi-pack with three of the most common floor vent sizes making it convenient for any size job.

CleanVENT™ is so thin it stays in place while flooring is finished, yet is so strong it stands up to construction site traffic. No need to remove CleanVENT™ while installing and finishing flooring.

CleanVENT™ works well beneath just about any flooring materials. Pictured at right are examples of hardwood, carpeting, tile, and vinyl installations.

## QUICK AND SIMPLE INSTALLATION

CleanVENT™ allows limited system operation when vent flaps are cut with box cutter. Simply cut two flaps in the plastic. Leave a small uncut area at center of top and bottom allowing air to flow through vent.

When flooring installation is complete, simply cut out recessed area of CleanVENT™. Drop register into position for a clean finish.
